**HOBART**

## TOTAL PERFORMANCE IN YOUR KITCHEN

At HOBART, we take pride in providing reliable and innovative high quality kitchen equipment that has been engineered to ensure that whatever challenges the day may bring, you can make it happen with HOBART.

**Let's make it happen!**

ACT

**HOBART**

**THE PERFECT SOLUTION**  
FOR ALL SECTORS OF INDUSTRY

# RACK-TYPE DISHWASHER CS

## HOSPITALITY

Bar & Pub / Bistro & Café /  
Hotel & Restaurant

## FOODSERVICE

Nursing home /  
Canteen / School

## THE MODEL

### PROFI CS

The **PROFI CS** is HOBART's smallest rack-type dishwasher and stands for top quality and absolute reliability. If the capacity of a hood-type dishwasher is not sufficient to meet your needs in the wash up area, the **PROFI CS** is the perfect solution. By using the optional heat recovery, you can save up to 7 kWh of energy.

# BEST WASH RESULT

## NON-CLOGGING NOZZLES

For continuous strong washing

The indented nozzles cannot be obstructed, resulting in a constantly powerful wash and perfect quality results. The combination of four upper and three lower wash arms leads to perfect results.

## THOROUGH DUAL RINSE

With efficient usage of fresh water

A second rinse zone is integrated prior to the actual final rinse. Here, the fresh water collected in the receiving pan is used a second time in an additional pre-rinse. The optional dual rinse ensures a sparkling wash every time.

## PRACTICAL DRYING

For a quick reuse of the wash ware

A perfect wash result means not only sparkling clean, but also dry tableware. The optional dryer fulfils these requirements quickly and precisely, allowing rapid reuse of all washed items.

## WIDE-ANGLE NOZZLES

Even distribution of the wash water

During the washing operation, an even distribution of the wash water is essential to achieve a perfect wash result. For the wash jets to be most effective, they were given a special shape by HOBART so that compared to conventional systems, they cover a larger area in a more accurate manner.

### Your benefit

The even and compact distribution of the wash water on the wash ware provides for a significantly improved wash result.

# EASY HANDLING

## ECOTRONIC CONTROL

Easy operation of the machine

The new control panel with its clear layout ensures simple and intuitive control of the rack-type dishwasher. The ECOTRONIC control system can also be used to determine the transport speed, for which you have three options. A temperature display is also included as standard.

## WASH ARM SLIDER

Quickly ready for cleaning

Our patented wash arm sliders allow you to clean the interior of the wash arms easily and comfortably. While conventional systems required you to unscrew the end caps of the wash arms first, now a single step is sufficient to get to the wash arm opening.

## COMPREHENSIVE CLEANING ASSISTANCE

Guaranteed orientation for cleaning

### **Colour-coded cleaning assistance**

Daily cleaning increases the performance and service life of your dishwashing system. To assist you in recognising which elements need to be removed for cleaning, these are marked in blue.

### **Coded curtains**

The curtains separating the different wash zones are clearly marked, preventing them from being mixed up when they are re-inserted.

### **Coded wash and rinse arms**

The clear identification of the wash and rinse arms prevents them from being mixed up when they are inserted.

## DROP-IN WASH SYSTEM

Facilitates cleaning

Make cleaning the machine as easy as possible for yourself. Thanks to the easy removal and reliable insertion of the wash systems by means of a drawer slide, cleaning work is as easy as could be.

## HIGH LEVEL OF ECONOMY

### CLIMATE ENERGY SAVING SYSTEM

For the efficient use of energy

Lower your costs – Increase your efficiency – Protect the environment: the CLIMATE energy saving system not only helps you to prevent energy losses, but also to lower the operating costs of your machine.

#### How does that work?

The energy of the hot exhaust air is continuously returned to the machine by means of a heat recovery system. Savings up to 7 kW/h are possible in this manner.

#### Your benefits

- Your machine's operating costs are significantly reduced.
- Minimised energy loss via exhaust air.
- Does not require a direct exhaust air connection to the room ventilation system

# WASHSMART

## HOBART WASHSMART APP

Key features at a glance

The new HOBART WASHSMART app provides you with a comprehensive overview of the status of your dishwasher – free of charge for 5 years. This includes, for example, that the app informs you in advance of upcoming maintenance due dates.

### Connect, learn, benefit

Based on this data, you can avoid downtime and contact HOBART customer service or an approved service partner. WASHSMART also provides illustrated instructions for minor faults so that you can solve them yourself.

### An overview of all functions

- Machine status (keep up-to-date regarding the statuses of all your machines)
- Fault messages (push notifications inform you of any system errors)
- Information on hygiene (indication and easy download of a hygiene report)
- Usage (information about the efficient use of the machine)

**You can find more information about the availability of WASHSMART in different countries and languages at [www.washsmart.info](http://www.washsmart.info).**

WASHSMART app for rack-type dishwashers CS available from July 2021.

## OUR VISION

Wash without water

Intensive market research has shown that our customers expect warewashing technology that combines efficiency with optimal performance. We are focused on meeting these demands and they form the foundation for our vision to "wash without water". This vision is our continuous incentive to break new ground in order to constantly reduce the consumption of water, energy and chemicals. We continue pursuing this goal methodically and with the most innovative engineering. Indeed, we already know that:

» When the first machine is finally capable of washing without water, it will be a HOBART. «

## THE COMPANY

We are HOBART

HOBART is the world market leader for commercial warewashing technology and a well-known manufacturer of cooking, food preparation, and waste technology. Established in 1897 in Troy, Ohio, today HOBART employs more than 6,900 employees around the world. At the manufacturing plant in Offenburg, Germany, HOBART develops, produces, and distributes warewashing technology worldwide. The hotel and catering trade, cafeterias, bakeries and butcher shops, supermarkets, airlines, cruise ships, automotive suppliers, research centres and pharmaceutical companies all over the world swear by our innovative products, which are considered to be economical and ecological market leaders.

**HOBART**

LET'S MAKE IT  
**HAPPEN!**

## MADE IN GERMANY

We provide this promise of quality to our customers, and it represents our personal standard upheld by all our staff at HOBART.

## OUR FOCUS

Innovative – economical – ecological

This is our philosophy. To us, innovation means continuously setting new standards in technology, combined with real added value for the customer. Our group's Technological Centre, and our own Innovation Centre for Warewashing Technology at our headquarters in Germany, make this possible. Here, our innovative powers are combined to create highly efficient products which continuously confirm our status as technological leader. To be economical means to set standards in terms of the lowest operating costs, minimal use of resources and to revolutionise the market continuously. To be ecological means responsible handling of resources and a sustainable energy policy. This applies not only to the product in use, but in general to all areas of the organisation, such as purchasing or manufacturing.

## HOBART

Competent – fast – reliable

HOBART service technicians and HOBART service partners are the "real" experts. Thanks to intensive training and many years of experience, they have a unique and profound knowledge of the products. This means that maintenance and repair work is always carried out professionally, fast and reliably.
